UNITED STATES DISTRICT COURT EASTERN DISTRICT OF NEW YORK

STRIKE 3 HOLDINGS, LLC,

STRIKE 3 HOLDINGS, LLC,

Plaintiff,

FIRST AMENDED COMPLAINT

FOR COPYRIGHT

Vs.

INFRINGEMENT

JOHN DOE subscriber assigned

IP address 24.228.200.32,

Defendant.

Defendant.

Plaintiff Strike 3 Holdings, LLC ("Strike 3" or "Plaintiff"), a Delaware limited liability company with its principal place of business located at 2140 S. Dupont Highway, Camden, Delaware 19934, brings this First Amended Complaint against Defendant John Doe subscriber assigned IP address 24.228.200.32 a/k/a ("Defendant"), and alleges as follows:

Introduction

- 1. This is a case about the ongoing and wholesale copyright infringement of Plaintiff's motion pictures by Defendant.
 - 2. Plaintiff is the owner of award-winning, critically acclaimed adult motion pictures.
- 3. Plaintiff's motion pictures are distributed through the *Blacked*, *Blacked Raw*, *Deeper*, *Milfy*, *Slayed*, *Tushy*, *Tushy Raw*, and *Vixen* adult websites and DVDs. With millions of unique visitors to its websites each month, the brands are famous for redefining adult content, creating high-end, artistic, and performer-inspiring motion pictures produced with a Hollywood style budget and quality.
 - 4. Defendant is, in a word, stealing these works on a grand scale. Using the BitTorrent

protocol, Defendant is committing rampant and wholesale copyright infringement by downloading Strike 3's motion pictures as well as distributing them to others. Defendant did not infringe just one or two of Strike 3's motion pictures but has been recorded infringing 30 movies over an extended period of time.

- 5. Although Defendant attempted to hide this theft by infringing Plaintiff's content anonymously, this Court's order(s) permitted Plaintiff to serve a subpoena on an Internet Service Provider ("ISP"), CSC Holdings, LLC (a/k/a Optimum Online), to discover the identity of the subscriber assigned IP address 24.228.200.32, the IP address Defendant used to download and distribute Plaintiff's works.
- 6. Based on Plaintiff's investigation of the subscriber and publicly available resources, Plaintiff identified Defendant as the true infringer.
- 7. This is a civil action seeking damages under the United States Copyright Act of 1976, as amended, 17 U.S.C. §§ 101 et seq. (the "Copyright Act").

Jurisdiction and Venue

- 8. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 1331 (federal question); and 28 U.S.C. § 1338 (jurisdiction over copyright actions).
- 9. This Court has personal jurisdiction over Defendant because Defendant used an Internet Protocol address ("IP address") traced to a physical address located within this District to commit copyright infringement. Therefore: (i) Defendant committed the tortious conduct alleged in this First Amended Complaint in the State of New York; (ii) Defendant resides in the State of New York and/or; (iii) Defendant has engaged in substantial – and not isolated – business activity in the State of New York.

10. Pursuant to 28 U.S.C. § 1391(b) and (c), venue is proper in this District because: (i) a substantial part of the events or omissions giving rise to the claims occurred in this District; and, (ii) the Defendant resides (and therefore can be found) in this District and resides in the State of New York. Additionally, venue is proper in this District pursuant 28 U.S.C. § 1400(a) (venue for copyright cases) because Defendant resides or may be found in this District.

Parties

- 11. Plaintiff Strike 3 Holdings, LLC, is a Delaware limited liability company located at 2140 S. Dupont Hwy, Camden, DE 19934.
 - 12. Defendant is an individual currently residing at

Factual Background

Plaintiff's Award-Winning Copyrights

- 13. Strike 3's subscription-based websites proudly boast a paid subscriber base that is one of the highest of any adult-content sites in the world. Strike 3 also licenses its motion pictures to popular broadcasters and Strike 3's motion pictures are often the number one selling adult DVDs in the United States.
- 14. Strike 3's motion pictures and websites have won numerous awards, such as "best cinematography," "best new studio," and "adult site of the year."
- 15. Strike 3's motion pictures have had positive global impact, leading more adult studios to invest in better content, higher pay for performers, and to treat each performer with respect and like an artist.
- 16. Unfortunately, Strike 3, like a large number of other makers of motion picture and television works, has a major problem with Internet piracy. Often appearing among the most

infringed popular entertainment content on torrent websites, Strike 3's motion pictures are among the most pirated content in the world.

Defendant Used the BitTorrent File Distribution Network to Infringe Plaintiff's Copyrights

- 17. BitTorrent is a system designed to quickly distribute large files over the Internet. Instead of downloading a file, such as a movie, from a single source, BitTorrent users are able to connect to the computers of other BitTorrent users in order to simultaneously download and upload pieces of the file from and to other users.
- 18. BitTorrent's popularity stems from the ability of users to directly interact with each other to distribute a large file without creating a heavy load on any individual source computer and/or network. It enables Plaintiff's motion pictures, which are often filmed in state of the art 4kHD, to be transferred quickly and efficiently.
- 19. To share a movie within the BitTorrent network, a user first uses BitTorrent software to create a .torrent file from the original digital media file. This process breaks the original digital media file down into numerous pieces.
- 20. The entire movie file being shared has a hash value (*i.e.*, the "File Hash"). A hash value is an alpha-numeric value of a fixed length that uniquely identifies data.
- 21. Hash values are not arbitrarily assigned to data merely for identification purposes, but rather are the product of a cryptographic algorithm applied to the data itself. As such, while two identical sets of data will produce the same cryptographic hash value, any change to the underlying data no matter how small will change the cryptographic hash value that correlates to it.
- 22. To find and re-assemble the pieces of the digital media file, *i.e.*, to download the file using BitTorrent, a user must obtain the .torrent file for the specific file that has been broken

down into pieces.

- 23. Each .torrent file contains important metadata with respect to the pieces of the file. When this data is put into the cryptographic algorithm, it results in a hash value called the "Info Hash."
- 24. The "Info Hash" is the data that the BitTorrent protocol uses to identify and locate the other pieces of the desired file (in this case, the desired file is the respective file for the infringing motion pictures that are the subject of this action) across the BitTorrent network.
- 25. Using the Info Hash in the metadata of a .torrent file, a user may collect all the pieces of the digital media file that correlates with the specific .torrent file.
- 26. Once a user downloads all of the pieces of that digital media file from other BitTorrent users, the digital media file is automatically reassembled into its original form, ready for playing.
- 27. Plaintiff has developed, owns, and operates an infringement detection system, named "VXN Scan."
- 28. Using VXN Scan, Plaintiff discovered that Defendant used the BitTorrent file network to illegally download and distribute Plaintiff's copyrighted motion pictures.
- 29. To explain, while Defendant was using the BitTorrent file distribution network, VXN Scan established direct TCP/IP connections with Defendant's IP address.
- 30. VXN Scan downloaded from Defendant one or more pieces of numerous digital media files.
- 31. Plaintiff identified these pieces as portions of infringing copies of Strike 3's motion pictures.
 - 32. To explain, the VXN Scan system first searched for and obtained .torrent files

claiming to be infringing copies of Plaintiff's works, and then downloaded complete copies of the digital media files that correlate to those .torrent files.

- 33. Plaintiff then compared the completed digital media files to Plaintiff's copyrighted works to determine whether they are infringing copies of one of Plaintiff's copyrighted works.
- 34. The digital media files have been verified to contain a digital copy of a motion picture that is identical (or, alternatively, strikingly similar or substantially similar) to Plaintiff's corresponding original copyrighted Works.
- VXN Scan then used the "Info Hash" value, contained within the metadata of the 35. .torrent file correlated with a digital media file that was determined to be identical (or substantially similar) to a copyrighted work, to download a piece (or pieces) of the same digital media file from Defendant using the BitTorrent network.
- 36. At no point did VXN Scan upload content to any BitTorrent user. Indeed, it is incapable of doing so.
- 37. The VXN Scan captured transactions from Defendant sharing specific pieces of 30 digital media files that have been determined to be identical (or substantially similar) to a copyrighted work(s) that Plaintiff owns.
 - 38. VXN Scan recorded each transaction in a PCAP file.
 - 39. VXN Scan recorded multiple transactions in this matter.
 - 40. For each work infringed a single transaction is listed on Exhibit A.
- 41. For each transaction listed, Exhibit A sets forth the Universal Time Coordinated (UTC) time and date of each transaction, along with (1) the Info Hash value obtained from the metadata of the corresponding .torrent file that formed the basis of the VXN Scan's request for data, and (2) the File Hash value of the digital media file itself.

- 42. Exhibit A also sets forth relevant copyright information for each work at issue: the date of publication, the date of registration, and the work's copyright registration number. In a showing of good faith, Plaintiff has intentionally omitted the title of the work from this public filing due to the adult nature of its content, but can provide a version of Exhibit A containing the works' titles to the Court or any party upon request.
- 43. Thus, Defendant downloaded, copied, and distributed Plaintiff's Works without authorization.
 - 44. Defendant's infringement was continuous and ongoing.
- 45. Plaintiff owns the copyrights to the Works and the Works have been registered with the United States Copyright Office.
- 46. Plaintiff seeks statutory damages, attorneys' fees, and costs under 17 U.S.C. § 501 of the United States Copyright Act.

Defendant is the Individual Who Infringed Plaintiff's Copyrighted Works

- 47. Plaintiff's investigation has determined that Defendant is the person who used IP address 24.228.200.32 to infringe on its copyrighted works.
- 48. Plaintiff utilized the Maxmind geolocation service to determine the ISP that assigned IP address 24.228.200.32 (to determine the correct ISP to whom a subpoena can be sent) and the geographic location of the subscriber of that IP address (to determine the proper venue in which to file an action).
- 49. Maxmind reported that IP address 24.228.200.32 was assigned by Optimum Online to a subscriber approximately located in Brooklyn, New York.
- 50. After the Court granted Plaintiff's request to conduct limited expedited discovery, Plaintiff served the court-authorized subpoena on Optimum Online on June 26, 2024.

- 51. On October 7, 2024, Optimum Online informed Plaintiff that the subpoena, the court's order, and a copy of Plaintiff's initial complaint were sent to the subscriber *via* Federal Express and delivered to the subscriber on September 6, 2024, in compliance with the Cable Communications Policy Act of 1984 ("CCPA"), 47 U.S.C. § 551 *et seq.*, and this Court's June 25, 2024 Order [D.E. 8].
- 52. On November 6, 2024, Optimum Online responded to the subpoena and identified Defendant as the subscriber to whom the ISP had assigned the IP address to during at least one date of infringement and provided the address identified in paragraph 12.
- 53. After receiving the ISP's response to the subpoena, Plaintiff reviewed publicly available social media data for the subscriber and searched for other individuals who, upon information and belief, may reside in the residence (and therefore would have had sufficient access to the IP address during the period of infringement).
- 54. Defendant lived at the residence identified in paragraph 12 above during the period of infringement.
- 55. Upon information and belief, Defendant was the only occupant of the residence identified in paragraph 12 above during the period of infringement.
- 56. Plaintiff logged BitTorrent network activity emanating from IP address 24.228.200.32 involving works other than Plaintiff's 30 copyrighted works during the period of infringement. Collectively, this evidence is referred to as the "Additional Evidence."
- 57. Plaintiff's Additional Evidence indicates that IP address 24.228.200.32 was used to download and distribute at least 1,917 files relating to other adult movies and mainstream media (*i.e.*, movies, music, books, software, TV shows, and other works) using the BitTorrent protocol during the period of infringement.

- 58. This consistent and prolonged history of BitTorrent activity indicates that the infringer is unlikely to be a houseguest or infrequent visitor.
- 59. Publicly available records indicate strong matches between the BitTorrent activity identified in Plaintiff's Additional Evidence and Defendant.
- 60. Defendant's publicly available social media indicates that Defendant has a degree in computer science.
- 61. Defendant's publicly available social media indicates that Defendant has a career as a software engineer.
- 62. Defendant's publicly available social media indicates that Defendant is skilled in Javascript, Python, Django, Linux, and machine translation.
- 63. Plaintiff's Additional Evidence lists files related to Defendant's career and skills, including, but not limited to:
 - a. [zooqle.com] Django 3 By Example Build Powerful And Reliable Python Web Applications From;
 - b. Django Web Development with Python (2016) (Pdf) Gooner;
 - c. Khonprakhon S. NumPy Mastery. 150 Practical Examples in Python...Guide...2023 [andryold1];
 - d. Mastering Django 4 by Aditya Dhandi PDF;
 - e. McDonald J. Dead Simple Python. Idiomatic Python...2022;
 - f. Ramalho L. Fluent Python. Clear, Concise, Programming 2ed 2022 PDF;
 - g. Two Scoops of Django 3.x: Best Practices for the Django Web Framework by Daniel Feldroy .;
 - h. Python for Data Analysis by Wes McKinney(2017) True PDF zeke;

- i. [FreeTutorials.Eu] [UDEMY] Python 3 in 1 Basics, Advanced and Django [FTU];
- j. GetFreeCourses.Me-Udemy-Python for Data Science and Machine Learning
 Bootcamp;
- k. Python and Django Full Stack Web Developer Bootcamp for 2023;
- 1. *Python for Data Analysis 2nd Edition by Wes McKinney EPUB ze*;
- m. Python Distilled David M Beazley PDF-EPUB;
- n. Core Java for the Impatient 1st Edition (2015).epub Gooner;
- o. Effective Java(2017) PDF zeke23;
- p. Effective Java, 3rd Edition 6549 [ECLiPSE];
- q. Horstmann C Core Java for the Impatient 3ed 2022 [andryold1];
- r. Horstmann C. Core Java for the Impatient 3ed 2023 Fix;
- s. *Udemy Next JS: The Complete Developer*'s Guide (Giga Course);
- t. Udemy Next.js & Die React The Complete Guide;

- v. linux-centos-9-packer-x86_64-min-gen2-v1.gz; and
- w. Machine Learning Stanford Online Course.
- 64. Defendant's technical background indicates that it is likely that he has not removed any factory-set password protection from the router he used to engage in this infringement.
- 65. Defendant's technical background indicates that it is likely that he instituted password protections on the router he used to engage in this infringement if they were not present by default.

66. Upon information and belief, the router Defendant used to engage in this infringement was password-protected throughout the period of infringement.

COUNT I

Direct Copyright Infringement

- 67. The allegations contained in paragraphs 1–66 are hereby re-alleged as if fully set forth herein.
 - 68. Plaintiff is the owner of the Works, which are each an original work of authorship.
- 69. Defendant copied and distributed the constituent elements of Plaintiff's Works using the BitTorrent protocol.
- 70. At no point in time did Plaintiff authorize, permit or consent to Defendant's distribution of its Works, expressly or otherwise.
 - 71. As a result of the foregoing, Defendant violated Plaintiff's exclusive right to:
 - (A) Reproduce its Works in copies, in violation of 17 U.S.C. §§ 106(1) and 501;
- (B) Distribute copies of the Works to the public by sale or other transfer of ownership, or by rental, lease or lending, in violation of 17 U.S.C. §§ 106(3) and 501;
- (C) Perform the copyrighted Works, in violation of 17 U.S.C. §§ 106(4) and 501, by showing the Works' images in any sequence and/or by making the sounds accompanying the Works' audible and transmitting said performance of the work, by means of a device or process, to members of the public capable of receiving the display (as set forth in 17 U.S.C. § 101's definitions of "perform" and "publicly" perform); and
- (D) Display the copyrighted Works, in violation of 17 U.S.C. §§ 106(5) and 501, by showing individual images of the works non-sequentially and transmitting said display of the works by means of a device or process to members of the public capable of receiving the display

(as set forth in 17 U.S.C. § 101's definition of "publicly" display).

72. Defendant's infringements were committed "willfully" within the meaning of 17 U.S.C. § 504(c)(2).

WHEREFORE, Plaintiff respectfully requests that the Court:

- (A) Permanently enjoin Defendant from continuing to infringe Plaintiff's copyrighted Works;
- (B) Order that Defendant delete and permanently remove the digital media files relating to Plaintiff's Works from each of the computers under Defendant's possession, custody or control;
- (C) Order that Defendant delete and permanently remove the infringing copies of the Works Defendant has on computers under Defendant's possession, custody or control;
- (D) Award Plaintiff statutory damages per infringed work pursuant to 17 U.S.C. § 504(a) and (c);
 - (E) Award Plaintiff its reasonable attorneys' fees and costs pursuant to 17 U.S.C. § 505;
 - (F) Award Plaintiff prejudgment and post-judgment interest at the applicable rate; and
- (G) Grant such other and further relief as this Court may deem appropriate under law and equity.

DEMAND FOR A JURY TRIAL

Plaintiff hereby demands a trial by jury on all issues so triable.

Dated: December 5, 2024 Respectfully submitted,
